

Summer Lecture Series Commemorating the 50th Anniversary of the 1964 Great Alaska Earthquake and Tsunami

June 4	Elena Suleimani University of Alaska Fairbanks, Geophysical Institute	It Hit Without Warning: Local Landslide Tsunamis Generated by the 1964 Great Alaska Earthquake
June 11	Peter Haeussler USGS Research Geologist	The 1964 Great Alaska Earthquake: Lessons Learned in the 50 years since the Dawn of Plate Tectonics
June 18	Chris Waythomas USGS Research Geophysicist	Volcanically Initiated Tsunamis
June 25	Rob Witter USGS Research Geologist	Ancient Tsunamis in the Aleutian Islands – How the Past Prepares us for Future Hazards
July 2	Terri Anderson National Park Ranger	Overview of the 1964 Earthquake and Tsunamis, with Videos and Animations.
July 9	Tony Luiken Emergency Management Specialist III, Department of Military and Veterans Affairs Division of Homeland Security and Emergency Management	Individual & Family Preparedness: Basic Steps to Prepare for Catastrophic Disasters
July 16	Rod Combellick Retired from Alaska Division of Geological and Geophysical Surveys	Geologic Evidence of Prehistoric 1964-style Earthquakes in the Anchorage Region Over the Past 5,000 years
July 23	Michael West State Seismologist, Director, Alaska Earthquake Center, University of Alaska Fairbanks	Why 1964 Earthquake Matters 50 Years Later
July 30	Robert (Buzz) Scher Alaska Seismic Hazards Safety Commission / Municipality of Anchorage Geotechnical Advisory Commission	Influence of the 1964 Earthquake on Civil Engineering and Building Codes in Alaska (and the U.S.)
August 6	Terri Anderson National Park Ranger	Overview of the 1964 Earthquake and Tsunamis, with Videos and Animations.
August 13	Kurt Byers Marketing and Events Coordinator, Norseman Maritime LLC	Ocean Fury: Tsunamis in Alaska.” Award-winning video about the 1964 tsunamis
August 20	Thomas Fondell USGS Research Wildlife Biologist	The Uplift of the Copper River Delta and the Decline of the Dusky Canada Goose
August 27	Cindy Preller Tsunami Program Manager, NOAA	The Tsunamis of 1964

Join us to learn how our knowledge of earthquake and tsunami hazards have changed over the last 50 years, how to prepare for the next disaster and how science has made us safer.

Wednesdays @ 2:00 pm

Anchorage Alaska Public Lands Information Center
605 West 4th Avenue in the Old Federal Building
(907) 644-3661 or AlaskaCenters.gov

Free to the public (photo ID required)
