

DEFORMED BIRD ALERT!

Have you seen crows with unusually long or crossed beaks?

Moderate overgrowth

Photo by Judy Rowe Taylor

Severe overgrowth

We are investigating bill deformities among Northwestern Crows and other resident bird species and need **YOUR HELP**. Local reports will help us determine the location and number of birds that are affected.

If you see a crow with a deformed bill, please contact
Caroline Van Hemert at the USGS Alaska Science Center:

(907)786-3981
