

Sponsorship Opportunities for the 14th International Circumpolar Remote Sensing Symposium, 12-16 September 2016, Homer, Alaska, USA

The International Circumpolar Remote Sensing Symposium was first held in Yellowknife, Canada in 1990 and since then it has alternated between North American and Europe on a biennial basis. It grew from the often-expressed need for exchange of information among those in governments, universities, non-governmental organizations, and the private sector interested with remote sensing research and applications in the polar environments. The symposium provides a forum for the exchange of current applied international research, the presentation of new technology, and the advancement of national and international cooperation in the circumpolar regions of the world.

For more information, please visit the 14th ICRSS website:
<http://alaska.usgs.gov/science/geography/CRSS2016/>

To keep registration fees reasonable and to maximize national and international collaboration, we are seeking financial support to defray costs for the rental of the Islands and Ocean Visitor Center in Homer, Alaska as well as other venue and symposium costs. This sponsorship opportunity is available to anyone who wishes to support the 14th ICRSS.

Please consider sponsoring at one of the following levels:

Pricing and Benefits	Excess Ice (\$5,000 or above)	Push Broom (\$2,500 to \$4,999)	Single Pulse (\$1,000 to \$2,499)	Equilibrium Line (\$999 and under)
